

Greyboard

Product Data Sheet

Material Specifications

Standard Width:	12" (304.8mm)
Standard Length:	24" (609.6mm)
Standard Thickness:	.030" (0.762mm)

Product Description and Key Features

Greyboard is used primarily as a base board for pouring counters. Greyboard is compatible with the pour counter resin and provides good heat resistance. It's ideal for most embossing and debossing applications when making your own counter on press.

Storage

Dry, climate-controlled conditions

Recommended For

Embossing and debossing jobs

***Disclaimer:** Before using this product, you must evaluate it and determine if it is suitable for your application. Storage conditions, metal type, temperature, size/weight, and cleanliness will affect bonding.
