

## **Rubber Skin**

### Product Data Sheet

#### **Material Specifications**

---

<b>Thickness:</b>	.025" (.65mm ± .03mm)
<b>Standard Sizes:</b>	9.843" x 14.1875" (250mm x 360.3mm) 12" x 35" (304.8mm x 889mm) 11" x 14.1875" (279.4mm x 360.3mm)
<b>Shore A Hardness:</b>	95

#### **Product Description and Key Features**

---

This flexible makeready is used primarily for flat foil stamping on cylinder and flatbed presses. It provides the cushion necessary to achieve medium to solid foil coverage areas while minimizing "punch" on the back side of the stamped substrate.

#### **Recommended For**

---

Embossing, debossing and hot foil stamping jobs

#### **Storage**

---

Dry, climate-controlled conditions
