

Yellowboard

Product Data Sheet

Material Specifications

Available Sizes: 25½" x 40" (647.7mm x 1016mm)
19" x 24" (482.6mm x 609.6mm)

Standard Thickness: .030" (0.762mm)

Product Description and Key Features

Yellowboard is a fibrous board that can be molded very easily, conforms to the contours of embossing/debossing, and is used in lieu of tough film when more detail is desired. Yellowboard is slightly dampened with water and placed over the pre-cast counter. With repeat impressions, the board molds to the counter adding maximum depth and detail.

Storage

Dry, climate-controlled conditions

Recommended For

Embossing and debossing jobs

***Disclaimer:** Before using this product, you must evaluate it and determine if it is suitable for your application. Storage conditions, metal type, temperature, size/weight, and cleanliness will affect bonding.
